

## Practise

Basic Facts No 14

(Stage 7 )

Strategy: Factors

List all the factors of these numbers

10	35	56
16	63	48
20	80	20
36	32	27
40	49	14
15	21	18
70	18	45
12	25	64
72	54	35

Suggestion to help at home:

Example: All the factors of 12

- $2 \times 6 = 12$ ,
- but also  $3 \times 4 = 12$ ,
- and of course  $1 \times 12 = 12$ .

So 1, 2, 3, 4, 6 and 12 are factors of
